FEEDING DIRECTIONS

Seminole Wellness® VICTORY! is a premium low-starch, textured feed for growing, breeding, pleasure and performance horses. Start the feeding program using the Daily Feeding Guide for the type of roughage fed and class of horse. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight.

Do not feed Seminole Wellness® VICTORY! on a free choice basis. Feed at regular times, with two or more equal feedings per day. Make all feed changes gradually, over a 7-10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has been exercised or is exhibiting pain, fever or diarrhea. VICTORY! weighs approximately 1.5 pounds per dry US quart. Feed hay and/or equivalent pasture at the rate of 1 or 2 pounds per 100 pounds of body weight daily. Provide a free choice horse mineral such as Seminole Grass Balancer 16:8 Mineral or Alfa Balancer 12:12 Mineral on continuous basis. Provide clean, fresh water at all times.
