

SEMINOLE

“WORLD’S BEST FEED”

SPECIAL COW MINERAL

A complete free-choice mineral and vitamin supplement for cattle under normal range conditions.

FEATURES	BENEFITS
HIGH LEVELS OF VITAMINS A & E	IMPROVED REPRODUCTION & DISEASE RESISTANCE
PROPER LEVELS OF CALCIUM & PHOSPHORUS	GROWTH & SKELETAL DEVELOPMENT
TRACE MINERALS IN SULFATE FORMS	GREATER ABSORPTION FOR KEY METABOLIC PROCESSES
SCIENTIFICALLY FORMULATED, COMPLEX MINERAL FORMULATION	ENCOURAGES MAXIMUM ACTIVITY OF RUMEN MICROBES FOR EFFICIENT FORAGE UTILIZATION

FEEDING DIRECTIONS

Free-Choice Feeding

Place Special Cow Mineral in a covered self-feeder and provide to cattle on a continuous basis in pasture. Provide one self-feeder for every 40 head of cattle. Place self-feeders near water source or loafing area. Consumption of mineral will vary due to size, age, and mineral status of animal, season, environmental conditions, amount and quality of hay and pasture, amount of supplemental grain fed, and other mineral availability. If consumption is greater than 4 ounces per day, locate mineral feeders further away from water and loafing areas, decrease the number of mineral feeders, and/or mix additional salt with Special Cow Mineral. If consumption is less than 2 ounces per day, locate mineral feeders closer to water and loafing areas and/or increase the number of mineral feeders available.

Mixed with Feed

For grain rations that do not contain added minerals or vitamins, add 20 pounds of Special Cow Mineral per ton (2,000 pounds) of grain ration.

Top Dressed on Feed

To provide additional mineral supplementation to cattle in confined areas without access to additional mineral, feed 2 ounces per day.

SPECIAL COW MINERAL

GUARANTEED ANALYSIS

Calcium (min)	17.00%	Cobalt (min).....	100 ppm
Calcium (max)	20.00%	Copper (min)	1500 ppm
Phosphorus (min)	6.00%	Manganese (min)	200 ppm
Salt (min)	22.75%	Selenium (min)	40 ppm
Salt (max)	27.30%	Zinc (min)	5000 ppm
Iron (min)	1.00%	Total Minerals (max)	96.0%
Magnesium	0.10%	Vitamin A (min).....	100,000 IU/lb
