WORLD'S BEST FEED for HORSES™

ALFA BALANCER 12:12 HORSE MINERAL

A complete mineral and vitamin supplement in granular form designed for horses and ponies of all ages. Scientifically formulated to provide the proper amounts of minerals for a legume-based feeding program.

FEATURES	BENEFITS
CALCIUM TO PHOSPHORUS RATIO OF 1:1	COMPLEMENTS MINERALS IN LEGUME-BASED FEEDING PROGRAMS
MAJOR & TRACE MINERALS	PROVIDES BALANCED MINERAL NUTRITION FOR PROPER GROWTH, DEVELOPMENT, BREEDING & LACTATION NEEDS
VITAMINS A, D ₃ & E	PROVIDES FOR HEALTH, GROWTH & REPRODUCTION NEEDS
COMPLETE MINERAL & VITAMIN SUPPLEMENT	FORTIFIES GRAIN, PASTURE, & HAY IN RATION
PROVIDES RECOMMENDED LEVELS OF CALCIUM, PHOSPHORUS, COPPER, MANGANESE AND ZINC	STRENGTHENS TEETH, BONES & HOOVES
YEAST CULTURE ADDED	INCREASED FIBER DIGESTIBILITY & NUTRIENT AVAILABILITY

FEEDING DIRECTIONS

Alfa Balancer 12:12 Horse Mineral is a convenient way to provide your horse with a balanced mineral and vitamin source to complement a legume roughage (hay or pasture) feeding program such as alfalfa or perennial peanut. Alfa Balancer 12:12 Horse Mineral may be fed by one of the following methods:

Free Choice

Place Alfa Balancer 12:12 Horse Mineral in a self-feeder and provide access in the stall or out on pasture. For pasture feeding, locate covered mineral self-feeder near water source. Provide Alfa Balancer 12:12 Horse Mineral for horses on a continuous basis. Consumption of mineral will vary due to individual appetite, size, age and condition of horse, amount and quality of hay and pasture available, amount of grain fed, season, environmental conditions, activity of horse, and other mineral availability. If consumption of Alfa Balancer 12:12 Horse Mineral exceeds 4 ounces per horse per day, move self-feeder away from water source and/or offer free-choice salt in block or granular form in addition to Alfa Balancer 12:12 Horse Mineral.

Mixed with Feed

For grain rations that do not contain minerals or vitamins, add 20 pounds of Alfa Balancer 12:12 Horse Mineral per ton (2,000 pounds) of grain ration.

ALFA BALANCER 12:12 HORSE MINERAL

Top Dressed over Feed

To provide additional mineral supplementation, feed Alfa Balancer 12:12 Horse Mineral as follows (1 ounce equals 1½ level tablespoons):

Foal	1 ounce per day
Yearling or Two Year Old	2 ounces per day
Pony	2 ounces per day
Breeding Stallion or Bred Mare	3 ounces per day
Lactating Mare	4 ounces per day
Pleasure or Show Horse	2 ounces per day
Moderate-Working Horse	2 ounces per day*
Hard-Working Horse	3 ounces per day*

* Plus additional electrolytes or salt to offset animal's losses through sweating.
