“WORLD’S BEST FEED”

FLATWOODS COW MINERAL

A complete free-choice mineral and vitamin supplement for cattle consuming forage that is deficient in copper.

FEATURES	BENEFITS
HIGH LEVELS OF VITAMINS A & E	IMPROVED REPRODUCTION & DISEASE RESISTANCE
INCREASED COPPER LEVEL	GREATER CONCEPTION RATE
TRACE MINERALS IN SULFATE FORMS	GREATER ABSORPTION FOR KEY METABOLIC PROCESSES
SCIENTIFICALLY FORMULATED, COMPLEX MINERAL FORMULATION	ENCOURAGES MAXIMUM ACTIVITY OF RUMEN MICROBES FOR EFFICIENT FORAGE UTILIZATION

FEEDING DIRECTIONS

Free-Choice Feeding

Place Supreme Cow Mineral in a covered self-feeder and provide to cattle on a continuous basis in pasture. Provide one self-feeder for every 40 head of cattle. Place self-feeders near water source or loafing area. Consumption of mineral will vary due to size, age, and mineral status of animal, season, environmental conditions, amount and quality of hay and pasture, amount of supplemental grain fed, and other mineral availability. If consumption is greater than 4 ounces per day, locate mineral feeders further away from water and loafing areas, decrease the number of mineral feeders, and/or mix additional salt with Supreme Cow Mineral. If consumption is less than 2 ounces per day, locate mineral feeders closer to water and loafing areas and/or increase the number of mineral feeders available.

FLATWOODS COW MINERAL

GUARANTEED ANALYSIS

Calcium (min)	17.00%	Magnesium.....	0.10%
Calcium (max)	20.00%	Zinc (min)	0.50%
