### FEEDING DIRECTIONS

Seminole Feed® Stable Mix Sweet is a textured feed for mature horses to be fed along with good quality hay and/or pasture. Start the feeding program using the Daily Feeding Guide for the type of roughage fed and class of horse. After observing and/or weighing the horse over a period of time, increase or decrease the daily feeding rate to obtain desired body condition or body weight.

## DAILY FEEDING GUIDE

\*\*Not recommended for this class of horses on this type of roughage.

Do not feed Seminole Feed® Stable Mix Sweet on a Free Choice basis. Feed at regular times, with two or more equal daily feedings. Make all feed changes gradually over a period of 7 to 10 days. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has just been exercised or is exhibiting pain, fever or diarrhea. Seminole Feed® Stable Mix Sweet weighs approximately 1.5 pounds per dry US quart. Feed hay and/or equivalent pasture at the rate of 1 to 2 pounds per 100 pounds of body weight per day. Provide fresh, clean water at all times. Provide a horse mineral, free choice, such as Seminole's Grass Balancer 16:8 or Alfalfa Balancer 12:12 Mineral on a continuous basis.
