## DAILY FEEDING GUIDE

**Seminole Performance** is a premium dog food. The following table should be used as a guide since dogs vary widely in their food requirements.

<b>BODY WEIGHT (lbs.)</b>	<b>CUPS per DAY (Standard Measuring)</b>
3 - 5 .....	1/2 to 3/4
5 - 10 .....	3/4 to 1
10 - 20 .....	1 to 1-1/2
20 - 30 .....	1-1/2 to 2
30 - 40 .....	2 to 2-1/3
40 - 60 .....	2-1/3 to 3
60 - 80 .....	3 to 3-3/4
80 - 100 .....	3-3/4 to 4-1/2

## RECOMMENDATIONS

These suggested feeding directions are guidelines only. The amount to feed each day may need to be adjusted upward or downward depending on age, activity, temperament and environment, to maintain normal body condition. Dogs should not be allowed to become overweight. If feeding your dog more than once per day, divide the above feeding amount by the number of feedings per day.

**Adult Dogs** - May be fed once or twice per day, depending on activity level. Adjust feeding level to maintain normal body condition. Do not allow your dog to become overweight.

**Weaning Puppies** - Start feeding puppies as early as they begin to nibble at solid foods, usually 3-4 weeks of age. Mix dry food with water to soften the food and offer only the amount the puppies will consume in 1 hour. Remove the wet food after 1 hour and clean feeding bowls. Puppies at this age can be fed 4-6 times per day. Overfeeding may result in loose stools.

**Growing Puppies** - Puppies less than 6 months of age, may be fed 3-4 times per day. Offer only the amount they will consume in 1 hour.

**Pregnant & Lactating Females** - During pregnancy, feed the amount needed to maintain good body condition. Food intake may double during late pregnancy. During lactation, feed the amount needed to maintain adequate milk production for the puppies, which may be 2-4 times the amount indicated on the feeding table for daily food consumption.

**ALWAYS HAVE FRESH CLEAN WATER AVAILABLE.**

We recommend your pets visit a veterinarian on a regular basis.

Make all feeding changes gradually over a 5 - 7 day period.

Delay feeding a dog that has been performing or is exhibiting pain or fever.

Seminole Performance Dog Food is formulated to meet the nutritional levels established by the AFFCO Dog Food Nutrient Profile for all life stages of your dog's life.

**AVAILABLE IN 20 lbs. & 50 lbs.**
