

**Seminole Wellness Equi-Safe is a complete, low-starch, forage-based feed for adult horses and ponies. Wellness Equi-Safe is formulated specifically for equines that are prone to or affected by health conditions such as laminitis, insulin resistance, obesity and other metabolic conditions associated with high-starch diets. Wellness Equi-Safe is a low-calorie feed made with a unique blend of chopped forages, soy oil, herbs and essential nutrients. Seminole Pro-Tect is included for immune & digestive health.**

FEATURES	BENEFITS
Complete Feed	This forage-based feed contains the essential nutrients & roughage needed for good health in an easy-to-feed form
Low-starch, Low-Sugar	Reduces the risk of health problems from high-grain diets
Long-Stemmed-Fiber	Needed for proper gut function. Increases chew time & salivation
Fixed-Formulation	Provides consistent levels of nutrients & forage
Biotin, Methionine & Zinc	Supports hoof growth & condition
Flax Seed, Rice Bran & Soybean Oil	Supplies essential omega-3 & omega-6 fatty acids for overall health and coat condition
Yucca Schidigera	Supports glandular function & has anti-inflammatory properties
Antioxidants	Selenium yeast & Vitamin E for healthy immune system function
Dust Free	High temperature dried processing reduces dust & mold spores, which is beneficial for horses with heaves & respiratory allergies
Mannan oligosaccharides (MOS)	Included to maintain intestinal health
Mycotoxin Adsorbent	Binds Mycotoxins that can be present in hays & forages
Garlic & Spearmint	These herbs are infused for health benefits & palatability

# Equi-Safe

## FEEDING DIRECTIONS

Wellness Equi-Safe is a complete, low-calorie feed designed for adult horses & ponies at risk from insulin resistance, laminitis, obesity and other metabolic disorders associated with high-grain diets. Start the feeding program using the Daily Feeding Guide. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight. If Wellness Equi-Safe is used as a complete feed, offer a minimum of 3 times per day. Wellness Equi-Safe can be used as the sole ration for overweight horses and easy keepers. If used as a supplemental meal extender, add a double handful to the horses ration at each feeding.

## DAILY FEEDING GUIDE

Horses Body Weight	Wellness Equi-Safe - when fed as the sole ration. (Pounds per day)	Wellness Equi-Safe - when used to partially replace feed and hay. (Pounds per day)
Less than 500 Pounds	5 - 10	1 - 3
500 - 750	10 - 15	3 - 5
750 - 1000	15 - 20	5 - 7
1000-1250	20 - 25	6 - 8
Over 1250 Pounds	25 - 36	8 - 10

Feed at regular times, with two or more equal feedings per day. Make all feed changes gradually, over a 7 – 10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has just been exercised or is exhibiting pain, fever or diarrhea. Wellness EquiSafe weighs approximately 0.5 pound per dry US quart. Provide a free choice horse mineral such as Seminole Grass Balancer 16:8 Mineral on a continuous basis. Provide clean, fresh water at all times.

### Seminole Brand Guarantee

If you're not satisfied, we're not satisfied. Should the quality of this product not meet your expectations, return it within 30 days with proof of purchase to your Seminole Feed dealer for a complete refund or replacement.
